

TRUONG THI HONG THAO

Product Designer – UX/UI Designer

Product Designer with nearly 5 years in design and 2 years in marketing, blending creative thinking with business strategy. I'm passionate about creating intuitive experiences that drive real results – boosting conversion rates by 160%+ and website traffic by 250%+ across greenfield projects in E-commerce, SaaS, B2B2C, and AI products.

My approach: connecting user needs with business goals through smart, data-driven design.

"Good design is not just what it looks like – it's how it works and why it matters."
